All products in the Hypervolt line are cordless, state-of-the-art percussive massage devices that help alleviate soreness, relax stiff muscles, improve range of motion, and promote better blood circulation to accelerate warm up and recovery time. They are powered by a rechargeable high-powered lithium ion battery (the same type of battery that powers a Tesla) that delivers up to 3,200 percussions per minute with three speed settings.

Benefits

- Helps relieve muscle soreness and stiffness, and promotes circulation
- Accelerates warm-up and recovery before and after physical activity
- Studies show a greater increase in range of motion with the use of the Hypervolt when compared to traditional foam rolling

Features

QUIETGLIDE™ TECHNOLOGY

Thanks to the QuietGlide™ Technology, the Hypervolt Plus and Hypervolt provide a truly therapeutic and calming experience. The decibel level on the Hypervolt Plus ranges up to 81 and the Hypervolt ranges up to 79 decibels (compared to 92+ decibels on other percussion massage devices). The Hypervolt Plus and Hypervolt are powerful yet quiet, and can be used anywhere without disruption.

POWER

Stall force is the max pressure or force one can apply to a motor until it comes to a complete stop. With a stall force at 80 lbs, the Hypervolt Plus is 30% more powerful than the Hypervolt. Users can pack more punch into their experience.

CUSTOMIZED EXPERIENCE

With five different head attachments and three speed levels, users can tailor their experience to fit their individual needs and preferences.

BUILT IN PRESSURE SENSOR

Applied pressure is indicated with three LED lights to provide real-time feedback.

PORTABILITY

TSA approved for carryon making it easy for travel, especially with the hard case add on. Lightweight and easy to carry around at only 3lbs for the Hypervolt Plus or 2.5lbs for the Hypervolt.

DESIGN

Easy to use with an ergonomic, seamless design to hit hard-to-reach areas of the body. Use the Hypervolt standing or seated. The Hypervolt has been tried and tested by the world's best athletes to provide a percussive massage device that offers superior quality that's built to last.

THE HYPERICE APP

Seamlessly blend your physical and digital activity to create an experience entirely customized to you. Connect to health and wellness apps, follow guided routines, and get exclusive content from top pros. Once paired with the Hyperice App, your device will automatically activate and change speeds during your selected routine.

HYPERSMART™

The brain of your Hyperice technology. HyperSmart™ compares stats from your connected apps with your Hyperice device usage to find the best routines for you. It powers the personalization and customization of your Hyperice experience with routine recommendations, and snapshots of your activity and recovery progress.
